

Bicycling

Last Updated Thursday, 10 June 2010

Killington has some of the best mountain Biking trails around. You can take a lift from Killington mountain to the summit where trails are abundant. You will find single track, double track and mountain roads.

The Killington area is home to some of the most beautiful bicycling terrain there is. Established cycling trails include the Delaware and Hudson Rail Trail, the Plymouth Union-West Bridgewater Loop, and Union Village Dam Project. Nearby bicycle touring groups can take you on routes that are more adventurous -- or less so.

(listed nearest to farthest)
